

**Question** I computed a 1-Step transformation in the field, but when I imported the job, the 1-step didn't come into Ski-Pro. How do I get a 1-Step transformation created in the field to import into Ski-Pro along with my RTK data?

**Answer** A setting must be selected to automatically import a 1-step transformation computed in the field with the job data.

Step	Action	Display
1	<p>From the Main menu in SKI-Pro, begin the normal importing procedure:</p> <ul style="list-style-type: none"> <li>• Click on the "Import" pull down menu.</li> <li>• Select "Raw Data..."</li> </ul>	
	<p>This opens the "Import Raw Data" window.</p>	
2	<p>In the "Import Raw Data" window:</p> <ul style="list-style-type: none"> <li>• Select the data you wish to import</li> <li>• Press the <b>Import</b> button.</li> </ul>	
	<p>This takes you to the "Assign" data window.</p>
